POWERED FOR INDUSTRY

As demand for next generation manufacturing and industrial space grows, **Kent Manufacturing & Innovation Campus** introduces a new Class A development **purpose-built** to provide **flexible solutions** tailored to today's modern industrial and advanced manufacturing tenants requirements.

Strategically located in the Kent Valley, Kent Manufacturing & Innovation Campus (KMIC) is positioned at the heart of one of the Pacific Northwest's most concentrated industrial and advanced manufacturing corridors. The campus provides direct access to a deep, highly skilled workforce and a dynamic ecosystem of aerospace, defense, and emerging space innovators.

Designed as a built-to-suit opportunity, KMIC is uniquely equipped to support power-intensive manufacturing, with robust infrastructure and proximity to an existing, upgraded Puget Sound Energy substation capable of meeting significant power requirements.

KENT VALLEY

Home to industry leaders and emerging space innovators, the **Kent Valley** has become a nationally significant hub for **aerospace** and **advanced manufacturing**. With **more industrial square footage** than Seattle, the Eastside, and the Northend combined, it defines the region's industrial scale and capability.

LABOR & WORKFORCE

Kent Valley offers one of the most established and **skilled industrial labor markets** in Washington. Anchored by the interconnected cities of Kent, Tukwila, Renton, and Auburn, the region supports a broad workforce across **manufacturing, logistics, distribution, and technical** production.

A long history of industrial activity, strong transportation access, and established supply chains create a stable labor environment capable of supporting both large-scale operations and growing industries.

Aerospace is the defining strength within Kent Valley's workforce. The region supports more than 31,000 direct aerospace jobs and accounts for roughly 35 percent of Washington's aerospace manufacturing impact. This concentration of specialized technicians and engineers positions Kent Valley as the state's primary center for aerospace manufacturing and innovation.

SKILLED LABOR CONCENTRATION IN PUGET SOUND

Occupation	Location Quotient
Avionics Technicians	15.10
Aircraft Structure, Surfaces, Rigging & Systems Assemblers	10.73
Statisticians	5.66
Aerospace Engineers	5.58
Computer & Information Research Scientists	5.01
Math Science, All Other	4.26
Software Developers	3.35
Materials Engineers	3.34
Software QA Analysts & Testers	3.30
Mathematicians	3.19
Database Architects	3.12
Aerospace Engineering and Op Technologists and Techs	2.7
Electro-Mechanical and Mechatronics Technologists and Techs	1.98
Aircraft Mechanics and Service Technicians	1.87
Mechanical Drafters	1.73
Fiberglass Laminators and Fabricators	1.70
Electrical, Electronic and Electromechanical Assemblers	1.26
Cargo and Freight Agents	1.25
Architectural and Civil Drafters	1.19
Electrical and Electronics Drafters	1.14

Location quotient compares local jobs to the national average. Above 1.0 indicates the **Puget Sound region** has a **stronger-than-average talent concentration**.

PROJECT TEAM

Project Developer

Mortenson is a U.S.-based, top 25 developer, builder, and engineering services provider serving the commercial, institutional, and energy sectors.

Through a growing portfolio of integrated services, including design, construction, development, and real estate investment, Mortenson helps customers turn strategies into high-performing assets.

Mortenson Development (MDI) is the real estate development arm of Mortenson. Drawing on a national build-to-suit platform and deep expertise in complex projects, MDI partners with public and private stakeholders to deliver thoughtful, long-term real estate solutions that align with each partner's goals & objectives.

Project Architect

WARE MALCOMB

Ware Malcomb is a dynamic, forward-thinking commercial real estate design firm dedicated to delivering innovative solutions for our clients.

Ware Malcomb began in 1972 with the design of industrial and office buildings. Throughout our history, we have remained committed to providing exceptional, innovative design for the industrial development community. We are focused on understanding our client's business, enhancing the design of buildings and providing cost effective design solutions that meet our client's long term real estate objectives.
